PROJECT INFORMATION

AUTOMATE-YOUR ONE STOP SHOP FOR CAR SERVICING

Technologies Used:- J2EE, SpringBoot, ReactJS, Bootstrap, MySQL

Description:

Automate- Your One-Stop Shop for Car Servicing is a comprehensive car servicing project. It is designed to automate the entire process of car servicing, from selecting different types of services to the final delivery of serviced cars to customers. The system includes features such as customer and service-provider registration, booking service as a customer and providing different services as a service-provider also implementing a database to store customer and vehicle information. This project showcases our proficiency in software development and our ability to design & develop complex systems.

Certification

2022	Completed C-CAT Entrance Course from Sunbeam, Pune
2022-2023	Completed Post Graduation Diploma in Advance Computing from CDAC, Pune
